# What is UniNetCoin

## Promissory Note

\_\_\_\_\_ Place of residence

\_\_\_\_\_ Date

I, \_\_\_\_\_ (Maker's name) \_\_\_\_\_ agree and promise to pay \_\_\_\_\_ (Payee's name) \_\_\_\_\_, or order the sum of (€ \_\_\_\_\_) Euros for value received, with interest at the annual rate of \_\_\_\_\_ % payable on/after \_\_\_\_\_ (Date) \_\_\_\_\_.

\_\_\_\_\_ (Maker's signature)

UniNet Project is B2B promissory notes transaction on Blockchain.  
We purpose to replace credit rating agency's role and insurance services.

## **Replace Credit rating agency's role**

UniNet blockchain contains transaction of promissory notes.

Anyone can easy to access company's promissory bills information.

## **Replace Insurance services**

Company needs reserve balance in UniNet network that called staking (POS)

Not only reserve balance can be insurance balance but also service can reward is paid out to masternode own company

# Road Map

2019

Q2 Develop UniNet Core

2019

Q3 Marketing in Mexico

2020

Q1 Marketing in South America

2022

Q1 Marketing around the world

# Coin Specification

Type	PoS + Masternode
Algo	Quark
Block Time	60 Seconds
Maturity	20 Confirmations
Difficulty Retargeting	Every Block
Masternode Collateral	1,000 UNN
P2P port	47578
RPC port	47579
Max Coin Supply	5,000,000 UNN
Premine	10% *

THANK YOU
